

DIPTI KUMARI

Full Stack Developer | React.js & Node.js Developer

Patna, Bihar, India | 9110122071 | diptikumari08932@gmail.com | [linkedin.com/in/dipti-kumari-6032aa39b](https://www.linkedin.com/in/dipti-kumari-6032aa39b) | github.com/diptikumari12

PROFESSIONAL SUMMARY

BCA graduate and Full Stack Developer with hands-on experience building end-to-end web applications using React.js, Node.js, Express.js, and MongoDB (MERN stack), along with REST API design, JWT authentication, and responsive UI development. Currently working as a UI/UX Design Intern, adding a strong design perspective to development work. Seeking a Full Stack Developer or MERN Stack Developer role to contribute to a dynamic engineering team.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), HTML5, CSS3, Python (Basic), Java (Basic)

Frameworks & Libraries: React.js, Next.js, Node.js, Express.js, Spring Boot, Tailwind CSS

Databases: MongoDB, MySQL, PostgreSQL

Tools & Platforms: Git, GitHub, Docker, Figma, VS Code, Postman, SEO, Google Ads

CORE COMPETENCIES

Full Stack Web Development | RESTful API Design & Integration | JWT Authentication & Security | Responsive UI/UX Development | Payment Gateway Integration | Wireframing & Prototyping | Team Collaboration | Debugging & Problem Solving

PROJECTS

Food Restro - Full Stack Food Ordering & Restaurant Application (In Development)

Next.js, Spring Boot, PostgreSQL, Docker | Team Project (Client Engagement) | Ongoing

- Collaborating with a team to build a full-stack food ordering and restaurant management application for a client, contributing to the Next.js frontend and coordinating with backend developers on a secure, scalable Spring Boot service.
- Contributing to relational data models and REST APIs backed by PostgreSQL to handle menu management, orders, and restaurant operations, with services containerized using Docker for consistent environments.
- Working with team members on feature ownership, API contracts, and integration, following an Agile workflow while the project is in active development.

Goverdhan Food Product - Full Stack E-Commerce Platform

React.js, Node.js, Express.js, MongoDB, JWT, Razorpay, REST API | Live on GitHub: github.com/diptikumari12/goverdhan-food-product

- Built a full-stack grocery e-commerce platform using React.js and Node.js, with product, cart, and order management.
- Designed REST APIs for authentication, products, orders, and user management, and integrated the Razorpay payment gateway with secure payment verification.
- Implemented JWT-based authentication for secure login and protected routes, and developed admin features for inventory and order tracking.

Slang Era Marketing - Client Agency Website (Team Project)

React.js, Responsive Design, UI/UX, SEO | Live: slangeramarketing.com

- Collaborated with a team to design and build a live business website for a digital marketing agency, covering services, pricing, testimonials, and blog sections.
- Contributed to the client portal login and booking/consultation flow to capture leads, and helped build a responsive, SEO-optimized layout for client conversion.
